

**Scenario based Learning**

1     How will you achieve this in AI?  
I will predict the resignation mail of the employees from the dataset and inform company.

2     3 Stages of problem Identification

Stage1     NLP  
Stage2     Supervised  
Stage3     Classification

3     Name of the project: Resignation prediction

4     Dummy datasheet

S.No	Employee name	Department	Years of experience	Status of working
1	A	Quality	2	Resigning
2	B	Purchase	5	working
3	C	Production	8	Resigning
4	D	Production	4	working
5	E	Production	2	Resigning
